MEDIA INVITE

Auditor General South Africa to address a Public Lecture at the University of Limpopo

The Auditor General South Africa (AGSA), Mr Kimi Makwetu will address a Public Lecture at the University of Limpopo (UL) on **Public Finance Management Act (PFMA) 2014-2015 Audit Outcomes.**

The Public Lecture which is a partnership between UL and AGSA will take place as follows:

Date: Thursday, 25 February 2016

Venue: Onkgopotse Tiro Hall, University of Limpopo (Turfloop Campus)

Time: 16h30 for 17h00

Keynote speaker: *Mr Kimi Makwetu: Auditor General SA*

The Auditor General reported slightly on improved audit results, but cautious about the slow pace in addressing internal control deficiencies on the 2014-2015 audit outcomes for national and provincial government. The report indicates that, were it not for the slow response in addressing the audit recommendations aimed at improving internal control systems and eliminating governance risks,

the national and provincial governments would have recorded impressive audit results for the 2014-15 financial year. The Auditor General observed that management at most auditees (73%) has been slow to respond to the (audit) recommendations aimed at assisting them improve key controls and addressing identified risk areas. This contributed to audit outcomes for 2014-15 that only improved slightly, since 2013-14.

Members of the media are, therefore, invited to this august information sharing occasion.

-Ends
